This game is actually great! It is not pay to win, not bought a thing, and usually wipe the floor with those who have payed for anything. Yes it might have some translation issues, but that is all. Gameplay is fun also, and if you are able to think like chess then you will have no time in leveling fast!

Now that's said, from today on, all gains from the Donation DLCs won't be given to charity.

Instead, they will be used as a fund for future games' development, like for the Steam Direct fee.

There won't be more of these with each new game. You can see on the store page that Shantalia and Corali'hulu don't have one.

Why the change?. **Divine D.I.V.A. is out !:**

You can also check the bundles for a deeper discount. Have fun and a huge thanks for your support!

. **Version 2.1: Engine update and accessibility screen.:**

Ren'py is updated to 7.2.2.!

With the "A" key, you'll get a menu (the accessibility screen) where you can change the default font for DejaVu Sans or Opendyslexic. The text size can also be changed. Said "A" key would still work during the QTE sequences, since the

accessibility screen won't be accessible there.

However, if you put the text too big, some lines will be cut/missing or some text will overflow (obviously).

Anyway, have fun with Alex, Alice and the others.. **Sales of the week !:**

Diana, Iliana, Victoria and Alissa are space mercenaries.

Join them in "Divine D.I.V.A.", an sci-fi story with choices and 4 endings (3 early/bad, 1 good).
